wood blinds

202

204

Our new white painted finishes include today's most popular home interior tones. One example: 2" Swiss Coffee. Wood blind matches this living room's walls. Solid Twill Cloth tapes in Linen and Ring Top panels in Swiss Coffee coordinate with the room's decor and add subtle contrast.

- Furniture-quality finishes on solid hardwood
- Exclusive Ladder tape upgrades
- NEW exclusive painted finishes match any décor
- 3 slat sizes to fit every window
- Exclusive Bamboo Wood slats
- NEW Motorized Tilt upgrade

2 NATURAL 942

Rustic slats are hand-selected for more pronounced graining and knots. Slats may contain small pinholes and have considerable variation in grain and color.

Wood is a natural product. There will be some variations in color and grain texture from the slats pictured here.

Upgrades

See price charts at left.

Specify under "Upgrades" on your order form.

• Ladder Style (see page 23)

• Valance Style (see page 24)

• Slat Style (see page 24)

• New! Remote Control Motorized Tilt Option and handheld remote control (see page 24). We recommend ordering one remote control unit for each room containing motorized wood blinds.

• 2 Blinds On 1 Headrail

(Maximum combined width is 102", 84" for Rustic, Sandblasted, Premium, and Bamboo. Not available on 3" blinds).

• Undersize Surcharge

No Charge Options

Specify under "No Charge Options" on your order form.

• Select Left or Right Cord Position

• Select Left or Right Tilt Position:

Note: Blinds under 18 1/2" wide must have split controls.

Blinds under 12 1/2" wide will be center tilt only - no tilt cord.

Motorized blinds must have the tilt control (eye) positioned on the opposite side of the draw cord.

• Wand tilt (available as an option on 2" blinds only; 3" blinds come with wand tilt only)

• Hold-Down Clips

• Extension Brackets (specify clearance needed)

FAST DELIVERY

* Excluding weekends and holidays.
 See ordering guide for details.

Only 3 days* with Next Day Air Add \$19 Per Blind

Only 4 days* with 2nd Day Air Add \$15 Per Blind

Up to 9 days* with FREE Standard Shipping

ORDERING CHECKLIST

1. CHOOSE 2. MEASURE

Find your product's measuring steps on the following pages:

Blinds + Shades	i-ii
Panels	iii
Cornices, Valances, Scarves	ii-iii
Hardware	iii
Layered Treatments	ii
Honeycomb Specialty Shades (call for measuring + ordering guide)	

Next, follow the easy step-by-step measuring instructions for each product you are ordering.

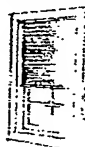

Measuring tips:

- Always use a steel tape measure.
- All dimensions should be taken to the nearest 1/8."
- Double check to make sure that you haven't transposed width and height measurements.
- Measure every window - often windows that look identical aren't!
- If you have any questions, please call customer service at 800-248-8888.

MEASURE Blinds + Shades

CHOOSE AN INSIDE OR OUTSIDE MOUNT

INSIDE MOUNT

(below)
Window treatment will be custom made to mount inside your window recess. An inside mount is often preferred because it provides a finished look without covering window molding.

OUTSIDE MOUNT

(page ii)
Window treatment will mount on your wall or molding. Ideal for shallow windows that will not accommodate an inside mount and for maximizing view.

INSIDE MOUNT

1. FIRST, VERIFY THAT YOUR WINDOW FRAME HAS ENOUGH UNOBSTRUCTED DEPTH.

YOUR WINDOW'S
FRAME DEPTH =
YOUR PRODUCT'S
FLUSH MOUNT DEPTH =
YOUR PRODUCT'S
MINIMUM DEPTH =

Durawood blind	3 1/4"	3 3/4"

Wood 2" blind w/ valance upgrade	1 3/4"	1 3/4"

• Measure your window's frame depth and enter it at left.

• For an inside mount, your window's frame depth needs to be the same or greater than the minimum depth required on the chart to the left.

• If your window frame depth is less than the minimum depth listed to the left, you will have to use an outside mount.

• For the face of your product to be flush with the wall, make sure that your window depth is the same or greater than the flush mount depth on the chart to the left.

FRAME DEPTH

FLUSH MOUNT
product sits flush with edge of window frame

MINIMUM DEPTH
product extends slightly beyond window frame

2. TO MEASURE YOUR WINDOW:

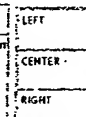

Provide the exact width and height measurements of your window opening. A small deduction will be taken from the measurements you specify to allow for operating clearance.

PRODUCT	WIDTH (MEASURE LEFT TO RIGHT)		HEIGHT (MEASURE TOP TO BOTTOM)	
	WHERE TO MEASURE	TO USE	WHERE TO MEASURE	TO USE
Roller shade	TOP	TOP	LEFT, CENTER & RIGHT	LOWEST
Horizontal blinds & shades	TOP, CENTER & BOTTOM	NARROWEST	LEFT, CENTER & RIGHT	LOWEST

Use this table to determine which width and height measurement to use for your product.

Please note: Roller shade fabric width will be approximately 1/4" to 1/2" narrower than the size specified depending on operating mechanism. If you need maximum light control and privacy, we recommend an outside mount.

2 on 1 Headrail Option: available on Honeycomb and Natural Roman shades, Wood, Durawood and Metal blinds only. Specify "2 on 1 Headrail" under "upgrades" on your order form. Write the total width & height under measurements on the order form. Under "Notes" on the order form give the individual blind or shade sizes and indicate L & R. Controls will be positioned to the far left and far right of the overall blind or shade.
